

Your name: _____

THAMES BASIN HEATHS
PARTNERSHIP

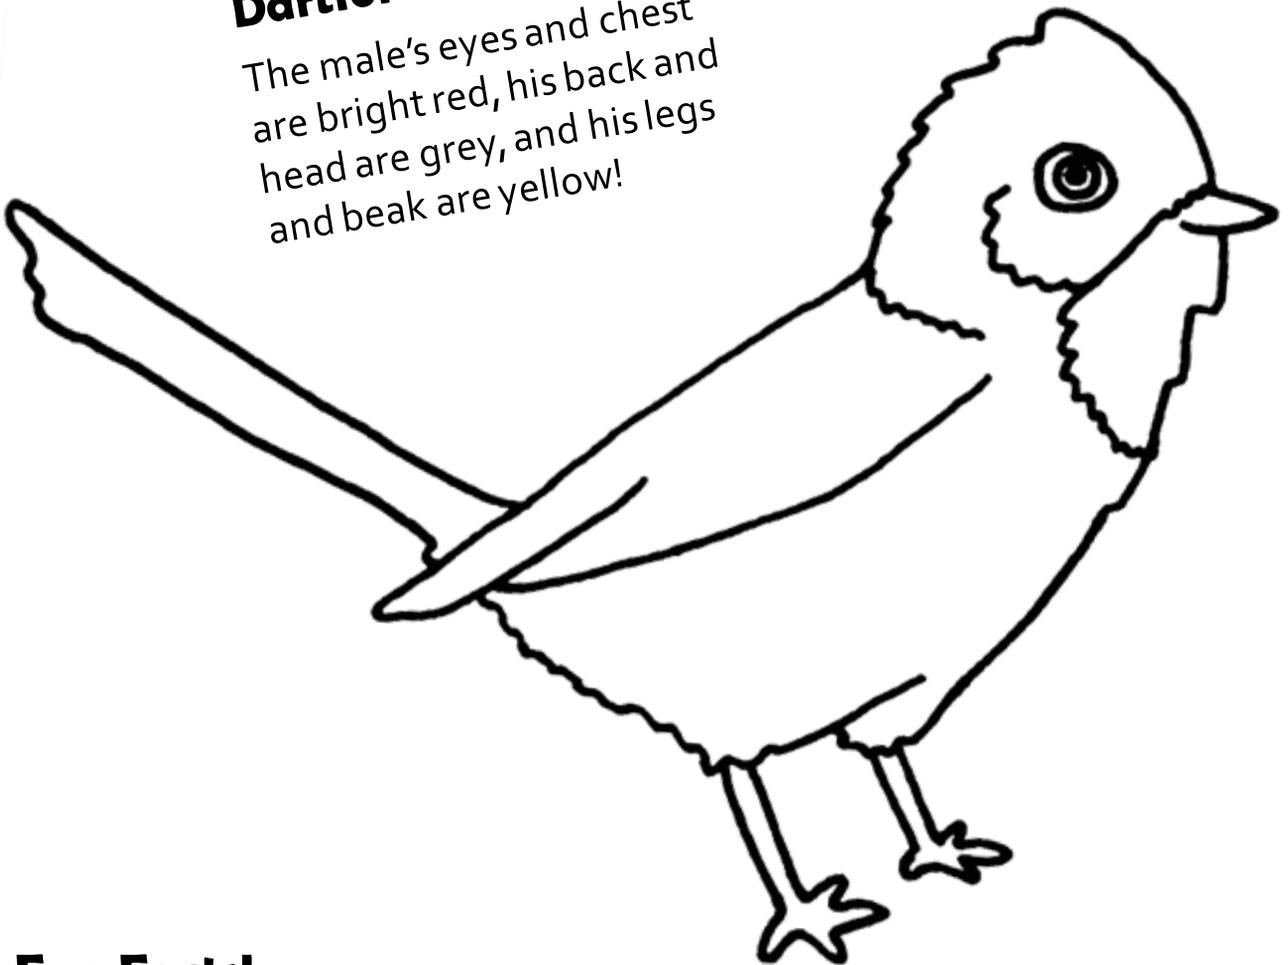

Colouring in our heaths:

Dartford warbler

Scientific name: *Sylvia undata*

What colour is the Dartford warbler?

The male's eyes and chest
are bright red, his back and
head are grey, and his legs
and beak are yellow!

Fun Facts!

- You might see the Dartford warbler bobbing between gorse and heather bushes where it nests, just above the ground.
- This brave little bird stays in the UK all year round!
